ASSED AUDITS (21)	Sho
ore information about the performance of your application. These numbers don't directly affect the Performance score.	
O Largest Contentful Paint element — 740 ms	~
○ Minimizes main-thread work — 0.4 s	~
<ul><li>O JavaScript execution time ─ 0.1 s</li></ul>	~
O Avoid chaining critical requests — 4 chains found	~
O Avoids an excessive DOM size — 354 elements	~
O Avoids enormous network payloads — Total size was 2,272 KiB	~
Avoid non-composited animations — 1 animated element found	~
Avoid large layout shifts — 1 layout shift found	~
○ Initial server response time was short — Root document took 240 ms	~
Reduce unused JavaScript — Potential savings of 107 KiB	~
Reduce unused CSS — Potential savings of 61 KiB	~
Properly size images — Potential savings of 14 KiB	~
Does not use passive listeners to improve scrolling performance	~
Ensure text remains visible during webfont load	~
Serve static assets with an efficient cache policy — 13 resources found	~
Enable text compression — Potential savings of 208 KiB	~
▲ Page prevented back/forward cache restoration — 1 failure reason	~
▲ Serve images in next-gen formats — Potential savings of 72 KiB	~

# Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so manual testing is also encouraged.

#### TABLES AND LISTS

Lists do not contain only elements and script supporting elements (<script> and <template>).

These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)

Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review.

#### PWA OPTIMIZED

These checks are required by the baseline <u>PWA Checklist</u> but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
